The perfect harmony
between nature
and comfort

CINELLI
NATURA

CINELLI NATURA

MISTRAL is Cinelli's new collection of lightweight quilts, bedspreads and pillows in linen and cotton, designed to ensure a fresh, natural sleep even during the warmest months.

MISTRAL enhances the Cinelli Natura® line with products that combine the benefits of linen and cotton, available both as bedspreads and as inserts to be used inside a duvet cover.

The filling is a **perfectly balanced blend of linen fibres and fine cotton**, while the fabric is mainly composed of **cotton** with a **touch of linen**, enhancing breathability.

This combination delivers **ideal comfort**, particularly during warmer seasons. **Linen** is lightweight, durable and highly breathable, helping to regulate body temperature and absorb moisture, while **cotton** adds softness and a gentle feel against the skin. Together, they create a fresh, pleasant and naturally antibacterial and hypoallergenic sleeping environment, promoting healthy and restorative rest.

Perfect for spring and summer, MISTRAL is an ecological and sustainable choice. The bedspread is available in several Cinelli standard sizes in the 200-gram version, while the pillow is offered in the 50 x 75 cm size.

The design is refined with a small box-stitch construction and a tone-on-tone piped edge.
