CINELLI
NATURA

**For a natural
choice.**

CINELLI NATURA

Natura is Cinelli's new product line designed to lighten our environmental impact. These products are made exclusively from **GOTS-certified organic cotton**, for which no chemicals are used at any stage of the production process, combined with a **high-quality filling** derived

from **GRS®-certified recycled down**. This filling retains the same standards of hygiene and thermal performance as original down fillings, while avoiding the breeding of new animals and limiting the use of additional natural resources.
